

School Rankings Based on Index Scores from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments Content: Elementary School Mathematics

Sorted by: Name

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

District	School	No. of Students Included in the Index Score Ranking†	Current Year Index Score and SE‡	Index Score Ranking of 378	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE‡	Index Score Improvement	Index Score Improvement Ranking of 377
State of New Hampshire	State of New Hampshire	90891	83.5 (+/- *)	210	95442	82.2 (+/- *)	1.3	178
Allenstown	Allenstown Elementary School	125	75.5 (+/- 2.5)	325	154	75.2 (+/- 2.2)	0.3	241
Allenstown	Armand R. Dupont School	180	69.6 (+/- 2.3)	357	164	72.2 (+/- 2.4)	-2.6	341
Alton	Alton Central School (Elem)	346	84.7 (+/- 1.3)	196	352	82 (+/- 1.4)	2.7	113
Amherst	Amherst Middle School	566	92.2 (+/- 0.8)	56	560	92.9 (+/- 0.8)	-0.7	286
Amherst	Clark School	0	-	A	0	-	-	B
Amherst	Harold H. Wilkins School	497	91.8 (+/- 0.8)	62	526	93.7 (+/- 0.7)	-1.9	323
Andover	Andover Elementary School	169	86.9 (+/- 1.8)	156	172	87.6 (+/- 1.7)	-0.7	286
Ashland	Ashland Elementary School	102	86.7 (+/- 2.2)	162	101	83.4 (+/- 2.5)	3.3	93
Auburn	Auburn Village School	447	91.6 (+/- 0.9)	66	442	89.1 (+/- 1)	2.5	122
Barnstead	Barnstead Elementary School	337	75.7 (+/- 1.6)	322	348	77.7 (+/- 1.5)	-2	329
Barrington	Barrington Elementary School	269	84.9 (+/- 1.5)	193	240	87.8 (+/- 1.4)	-2.9	347
Barrington	Barrington Middle School	299	79.7 (+/- 1.7)	274	343	74.7 (+/- 1.7)	5	47
Bartlett	Josiah Bartlett Elementary Sch	202	89 (+/- 1.5)	107	200	84.3 (+/- 1.8)	4.7	54
Bath	Bath Village School	37	88.6 (+/- 3.8)	115	41	87.3 (+/- 3.3)	1.3	178

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments Content: Elementary School Mathematics

Sorted by: Name

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

District	School	No. of Students Included in the Index Score Ranking†	Current Year Index Score and SE‡	Index Score Ranking of 378	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE‡	Index Score Improvement	Index Score Improvement Ranking of 377

Lyme	Lyme Elementary School	115	93.7 (+/- 1.8)	26	104	91.9 (+/- 1.8)	1.8	156
Lyndeborough	Lyndeborough Central School	59	87.1 (+/- 2.8)	148	64	80 (+/- 3.2)	7.1	15

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments Content: Elementary School Mathematics

Sorted by: Name

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments Content: Elementary School Mathematics

Sorted by: Name

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores

from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments

Content: Elementary School Mathematics

Sorted by: Index Score Ranking

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments Content: Elementary School Mathematics Sorted by: Index Score Ranking

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores

from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments

Content: Elementary School Mathematics

Sorted by: Index Score Ranking

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

District	School	No. of Students Included in the Index Score Ranking†	Current Year Index Score and SE‡	Index Score Ranking of 378	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE‡	Index Score Improvement	Index Score Improvement Ranking of 377
State of New Hampshire	State of New Hampshire	90891	83.5 (+/- *)	210	95442	82.2 (+/- *)	1.3	178

Nashua	Fairgrounds Elementary School	368	79.5 (+/- 1.5)	277	379	74.1 (+/- 1.5)	5.4	39
Mascoma Valley Regional	Indian River School	335	79.5 (+/- 1.5)	277	344	72.4 (+/- 1.6)	7.1	15
Somersworth	Hilltop School	94	79.4 (+/- 3)	280	95	77.1 (+/- 2.9)	2.3	133
Merrimack	Merrimack Middle School	374	79.4 (+/- 1.4)	280	373	81.9 (+/- 1.3)	-2.5	336
Concord	Rumford School	82	79.3 (+/- 3.1)	282	85	76 (+/- 3.2)	3.3	93

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments Content: Elementary School Mathematics

Sorted by: Index Score Ranking

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

District	School	No. of Students Included in the Index Score Ranking†	Current Year Index Score and SE‡	Index Score Ranking of 378	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE‡	Index Score Improvement	Index Score Improvement Ranking of 377

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores

from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments

Content: Elementary School Mathematics

Sorted by: Index Score Ranking

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores

from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments

Content: Elementary School Mathematics

Sorted by: Index Score Improvement Ranking

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

District	School	No. of Students Included in the Index Score Ranking†	Current Year Index Score and SE‡	Index Score Ranking of 378	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE‡	Index Score Improvement	Index Score Improvement Ranking of 377

Exeter	Lincoln Street Elementary Sch	465	94.7 (+/- 0.7)	19	467	93.5 (+/- 0.8)	1.2	182

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments Content: Elementary School Mathematics Sorted by: Index Score Improvement Ranking

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments Content: Elementary School Mathematics Sorted by: Index Score Improvement Ranking

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

District	School	No. of Students Included in the Index Score Ranking†	Current Year Index Score and SE‡	Index Score Ranking of 378	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE‡	Index Score Improvement	Index Score Improvement Ranking of 377

Moultonborough	Moultonborough Academy Jr HS	57	80 (+/- 3.4)	269	61	84.3 (+/- 3)	-4.3	360
Hinsdale	Hinsdale Jr. High School	44	70.5 (+/- 4.2)	352	70	74.9 (+/- 3.4)	-4.4	361
Hill	Jennie D. Blake School	65	70.5 (+/- 3.6)	352	63	74.9 (+/- 3.7)	-4.4	361
Monadnock Regional	Monadnock Regional Junior High	149	65.9 (+/- 2.5)	364	180	70.4 (+/- 2.4)	-4.5	363
Winnisquam Regional	Sanbornton Central School	132	81.8 (+/- 2.2)	238	134	86.4 (+/- 2)	-4.6	364
Manchester	Middle School At Parkside	464	61.5 (+/- 1.5)	372	491	66.3 (+/- 1.4)	-4.8	365

† Number of students who contributed to the index score.

‡ There is some variation associated with all measurement, including test scores. For example, the results of public opinion polls are reported with a margin of error, such as 54 percent plus or minus (+/-) five percent. On these ranking lists the reported variation is the standard error of the mean (SE). Please note that as the number of students increases, the SE decreases.

* The SE is less than 0.1.

“A” A ranking is not assigned when fewer than eleven (11) student scores are included in the index score for a school or district.

“B” A ranking is not assigned for index score improvement if fewer than eleven (11) student scores were included in either the current or prior year index score.

School Rankings Based on Index Scores from May 2006 NH-Alt and October 2006 NECAP Statewide Assessments Content: Elementary School Mathematics Sorted by: Index Score Improvement Ranking

The data provided on these ranking lists are based on the performance index scores that are calculated during Adequate Yearly Progress (AYP) reporting. Rankings are assigned by content area. Beginning this year, when a previous index score is available, a separate ranking is also calculated based on the improvement in the index score from one year to the next year. Schools that have the same index score (or the same improvement in index score) earn the same rank. High schools will not receive an index score until 2007-2008 AYP reports are issued in the spring of 2008, therefore high schools are not included in these ranking lists.

District	School	No. of Students Included in the Index Score Ranking†	Current Year Index Score and SE‡	Index Score Ranking of 378	No. of Students Included in the Prior Year Index Score Ranking	Prior Year Index Score and SE‡	Index Score Improvement	Index Score Improvement Ranking of 377
State of New Hampshire	State of New Hampshire	90891	83.5 (+/- *)	210	95442	82.2 (+/- *)	1.3	178
Fall Mountain Regional	Charlestown Primary School	132	71.1 (+/- 2.8)	350	121	76.2 (+/- 2.4)	-5.1	366
